Professional Experience

Spinutech, LLC – (Remote)
Web Developer

July 2021 – July 2022

- New development and maintenance of ASP.NET web applications including applications built using MVC and Webforms frameworks; languages that include C#, VB.NET, JavaScript (Vanilla and jQuery), HTML, VBScript, and razor; and MySQL and Microsoft SQL Server databases for data storage
- Utilize Git and Subversion for Version Control
- Development of custom solutions related to proprietary web-based CMS called "Spinternet"
- Coordinate with Project Managers to deliver products and solutions to clients
- Collaborate with other developers/team members to improve efficiency and timely delivery of solutions
- Write clean, consistent code matching established guidelines and patterns
- Leverage work, from website maintenance tasks to new development on existing sites, for several different clients and deliver quality solutions within deadlines

American Hotel Register Company – Vernon Hills, IL
Junior Web Developer

April 2018 – December 2018

- Assisted in new development and maintenance of ASP.NET MVC e-commerce website (C# as back-end)
- New development included implementing HTML forms with client-side and server-side validation, implementing asynchronous operations in controller, retrieving information (using ADO.NET Entity Data Models and LINQ) from SQL Server database, etc.
- Maintenance included product support by responding to user requests and investigating user concerns
- Other tasks included code refactoring and adding comments in code files

ACS Group – New Berlin, WI
Information Systems Specialist

October 2015 – March 2018

- Constructed a separate "Configurator" - an application that allows Sales and Engineering to configure any product offered by the company, generate quotes and sales orders - for each product offered by the company
- Tested inside of Microsoft Dynamics which is the platform used to launch the "Configurator", while providing Microsoft Dynamics training to end users
- Interacted, introduced, and reviewed requirements with Sales, Engineering and Production departments to ensure proper solution is delivered in a timely manner

Parker Hannifin Corporation – Lincolnshire IL
Junior Web Developer

October 2014 – October 2015

Sameer Rizvi

- Built ASP.NET webforms application (C# for backend) for a Microsoft SQL Server database
- Hosted web application on Windows Server 2012 via IIS
- Designed barcode labels using Zebra Designer Pro software
- Answered help desk tickets and addressed any technical employee concerns related to software and/or hardware

Northwestern Mutual – Milwaukee, WI

I.T. Associate

May 2014 – August 2014

- Developed interactive reports using Cognos Report Studio and tested them for format and/or data defects
- Learned SQL in order to write queries via Rapid SQL and facilitated in debugging and fixing C# code that caused an application to crash
- Used various Microsoft Office applications to collaborate and complete tasks
